

Collaborative Procurement Playbook

Worksheet 1: Quick EP Checklist

Has your facility conducted a formal Hazard-Vulnerability Analysis (HVA)/All-Hazards Risk Assessment? Are updates made at least every 2 years?

The following HVA tools can be used to assess your facility's top hazards.

- [Community Disaster Resilience Tool](#) – Natural Hazards Tab
- [ASPR TRACIE HVA Topic Collection](#)
- Coming soon – [ASPR Risk Identification and Site Criticality Toolkit](#)

What are the top 3 hazards your facility is most at risk for?

Has your facility developed an Emergency Operations Plan (EOP) based on the HVA that is updated and exercised every 2 years?

Has your facility made any updates to the EOP or other plans/policies as a result of lessons learned from recent real-world events (COVID-19, etc.)?
